**Boulder Community Hospital**

*The best place to get better*

[bch.org](http://bch.org)

CareChex recently named Boulder Community Hospital's Neuro-Surgery program the best in the Denver metro area thanks to our hospital's state-of-the-art facilities and equipment, and our association with the outstanding physicians of Boulder Neurosurgical Associates.

The CareChex quality rating service provides a comprehensive evaluation of all components of medical quality including process of care, outcomes of care and patient experiences.

A dedicated neurological ICU, specially-trained nurses, and Colorado's only intra-operative MRI

right in our neuro-surgical suite are just a few of the reasons CareChex singled out Boulder Community Hospital for this recognition.

Undoubtedly, the talented surgeons of Boulder Neurosurgical Associates are a major reason for our success. These first-rate physicians are experts in the most challenging brain- and spine-related conditions.

So if you're facing a serious spine or brain issue, it's reassuring to know that outstanding care is available right around the corner. **Learn more at [bch.org](http://bch.org) or [bnasurg.com](http://bnasurg.com).**
