

YOU DESERVE THE BEST Orthopedic Care.

"Like many folks in Boulder I need to stay active. When shoulder pain was keeping me from doing the things I love, I had to do something. I had reconstructive surgery at Boulder Community and I'm back at it. Their experience made my experience a very positive one."

Boulder Community Hospital is ranked in the top 10% nationally for orthopedic care by the CareChex quality rating service. The reason – exceptional doctors, outstanding nurses and therapists, and the latest clinical technology.
